M062 - Mini-Fence-High-Voltage Generator

Produces from a battery voltage of 9 - 12 V/DC a pulsating, weak high-tension of approx. 1000 Volt. For electrically operated fences for small animals, as thief-protection etc.

The two high voltage wires must be simultaneously connected to the bare feet, tongue, snout or other part of the small animal to induce electric shock.

Technical Data:

Operating voltage: 9 - 12 V/DC

Power consumption: ca. 40 mA

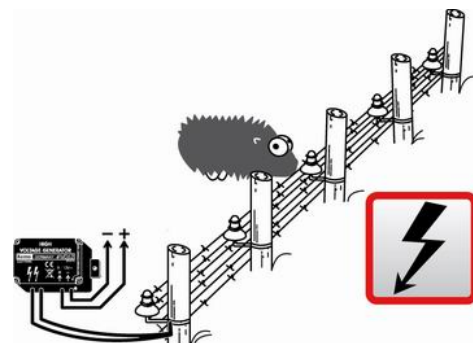

Output voltage: pulsating max. 1000 V / 0.5 joule

Pulse frequency: ca. 1 Hz (1 puls per second)

High-voltage display: LED

High-voltage cable length: max. 100 m (use paired wiring, wires not included)

Dimensions: ca. 72 x 50 x 42 mm (without fastening straps)

M062
