Z004 - Bonnet switch for anti marten devices in cars

Please place the switch in a way, that the pin is 60 - 80% pressed when the hood is closed. Then the connected anti marten device turns on. The pin must not be pressed to the limit, because the switch can then be broken when the hood is slammed vigorously (the pin then strikes against the stopper and pushes the switch bottom out).

- Package Contents: 1 bonnet switch (1 x ON)
- 1 stainless steel mounting bracket 2 female terminal 4,8 mm
